COMMUNITY PLANTING PARTY

Main Street NE Median
Saturday, July 22 at 9:30 am

Come and help plant the rain garden
Venga y ayude a plantar el jardín de lluvia
Noo imow si aad nooga caawiso falida beer roobeedka

You just have to join us as we get closer to making Main Street NE a walk-
ing destination – a place where something is always blooming!

A pilot planting project gets underway on Saturday morning, July 22 at
9:30 a.m. This will be a morning for community members to come out
and learn about the project and, if you'd like to get your hands dirty, help
volunteers plant the perennials.

Plans call for the plants to be low-maintenance, native, pollinator-friendly,
drought-resistant perennials that will thrive in the rain gardens. Blooming
time will be staggered so there should be something blooming for much
of the growing season.

The project is a joint effort between the Saint Anthony West Neighborhood
Organization (STAWNO) and volunteers with the Master Water Steward pro-
gram with the Mississippi Watershed Management Organization (MWMO).
The area to be planted is the median between 7th and 8th Avenues NE.

We'll have refreshments and MWMO volunteers will be there with infor-
mation about the positive affect on water quality from native, deep-rooted
plants. Get out your sunscreen and planting gloves – come be a part of
making it happen.
